SMART EQUIPMENT™

with you all the way

SMART TRIAGE PAC

The **Smart Triage Pac** gives the ultimate practical solution to effective on scene triage.

By holding the key triage equipment, it initiates a systematic and thorough response, allowing for the rapid triage of adults and children at any scene, which has proven invaluable in enhanced control.

SMART TAG®

The **Smart Tag®** is the most comprehensive all risk Triage Tag available. Highly visible in all conditions, its unique folding design saves time during triage.

SMART COMMANDER

Compact size allows for flexible response. Detachable control boards prompt ordered reporting and assist information handover, speeding up decision making. The availability of documents and plans provides the most effective way to enhance disaster response.
