

# SMART TRI PACK™

improving survivability

## Key points:

- Delivering the right level of care to the scene of an MCI
- Contains all the tools needed for effective triage
- Hands free design enhances scene safety and mobility
- Detachable shoulder straps for multiple ways to carry

The **SMART TRI Pack™** allows you to perform rapid lifesaving interventions whilst conducting effective triage

**Design** - guided by customer feedback and evidence from real incidents, the **SMART TRI Pack™** is a valuable resource for responders that provides space for key medical equipment allowing them to deliver rapid life saving interventions at the point of wounding.

**HazMat** - the design of the **SMART TRI Pack™** allows it to be worn over a positive pressure suit without compromising the air circulation in the suit. It is a practical way to take chemical antidote auto injectors into the scene of a HazMat incident.

# SMART EQUIPMENT™

for triage that works

## SMART TRIAGE PACK™

The **SMART TRIAGE PACK™** gives the ultimate practical solution to effective on scene triage. By holding the key triage equipment, it initiates a systematic and thorough response, allowing for the rapid triage of adults and children at any scene, which has proven invaluable in enhanced control.

Standard contents include 20 **SMART TAG™**s, 20 **SMART CBRNE TAG™**s, a **SMART TAPE™** and light-sticks for identifying casualties in low light.

## SMART TAG™

The **SMART TAG™** is a comprehensive all-risk Triage Tag.

The folded design allows for effective triage that is quick and simple, allowing you to reprioritise your casualty quickly without losing information.

Made from durable materials, the **SMART TAG™** will survive the worst of conditions. The highly visible design enables quick identification of patient priority, speeding up the treatment of critical patients.

## SMART TAPE™

The **SMART TAPE™** allows rapid, safe and evidence based triage of children at the scene, maximising the resources available.

By relating a child's length to their normal physiological values the **SMART TAPE™** is unique in providing an age adapted triage algorithm.

Usable in low light, this pocket sized tape is tough enough to be reused time and time again in the worst conditions.
